Plymouth Model Flying Club Newsletter

June 2008

Dear members,

This is a short news letter this month. More to follow after Woodspring's no doubt.

First of all I would like to give those that are going on the jolly boys outing to Woodspring's this year the agenda.

1. 0730 on Saturday 5th July muster at the Nova Hotel Mash Mills (Wally this means you!! Set your alarm!!)
2. 0745 pick up the Ivybridge crew from the ramp at Ivybridge
3. Kelvin to be picked up in Ashburton on the way through

I would like to make you all aware that there could possibly be a visit to the flying field by a young lady from the university doing a her course work and would be interested in taking photos of our aircraft with their pilots. So be nice and smile!!

Not a great deal more news to be honest but those of you who have paid a visit to the field will have noticed that the tractor has been put back in to working order and the strip is looking really good again. So a big thank you to all concerned in keeping it going and us flying.

Just a final note before I sign off I must point out that Wally has turned to the dark side and been flying ELECTRIC. (But I must say it does look rather good in the air!!).

Adrian.
